SUMMER JOB OPPORTUNITY

HOUSEHOLD SURVEY

Are you interested in educational topics? Researchers from University of Chicago & Princeton University are conducting a 30 minutes survey spanning 600 households in the New Haven Public School District.

The study deals with the way parents and students interact with the school application and assignment mechanism currently used in New Haven. We are doing a small household survey, and need some help collecting the data.

The requirements and details of the position include:

Education:
No college degree required. Preference will be given to experienced individuals, senior college students, or recent graduates.

Age:
21 years and above.

Language requirements:
Good communication skills and ability to clearly read and write in English. Spoken and written Spanish is a plus.

Additional requirements:
A responsible, reliable dependable worker. Preferably lives in or is familiar with New Haven.

Training session:
Compensated, two-day compulsory training session.

Compensation:
A $20 compensation per completed survey will be provided. Bonuses will be offered based on performance.

If you meet the requirements mentioned above, and if you are interested in this position, please e-mail your resume to hiring@scnewhaven.com. Selected candidates will be contacted via phone.
